TEXT: SHOULD MOBILE PHONE BE BANNED AT SCHOOL?

1 Mobile phones are very much in fashion today and many children have their own phones. They take them everywhere they go; even to school. This can be a problem, especially if they are used in class. Some schools have proposed banning mobile phones.

On the one hand, parents may need their children in an emergency, so it is important for students to have

5 their mobile phones at schools. Students may also need their parents for some reasons; they can use their phones to tell them they will come home late.

In addition, using the different options of the phone such as internet and Facebook is also very efficient; it is quick means of communication and a rich source of information.

But on the other hand, some students do not have the opportunity to get mobile phone. They may feel bad

10 about this or even jealous. Another issue is that mobile phone ring in the classroom. It disturbs the others.

Moreover, they may lose their concentration during a lesson. They are most of the time busy talking with their friends on Facebook.

To sum up, while the students may need to have phones in case of emergencies, they should switch their phones off before lessons. The use of mobile phone in class is annoying and disrespectful. They should be

15 banned during lessons.
